

GIVE YOUR UNWANTED ELECTRONICS AN AFTERLIFE

Johnson Tarbutt Joint Landfill has an ELECTRONICS BIN.
At present, the big, walk-in red bin is situated by the metal pile.

Please place items carefully in the bin.

DO NOT scavenge in the bin.

Ontario Electronic Stewardship, a non-profit industry organization, oversees the responsible reuse and recycling of electronics - free of charge. This program was developed with **Waste Diversion Ontario**, on behalf of the Ontario government, under the **Waste Diversion Act**. This program will help protect human health, water ways and ecosystems while creating a cleaner environment for all Ontarians.

MANDATE

Diverting electronic waste from Ontario's landfills and responsibly disposing of it.

Please see the back of this flyer for acceptable items.

Please pick up a more detailed list at your Municipal Office or at the Landfill..

There will, also, be a list just inside the door of the Electronics Bin.

REUSE REDUCE RECYCLE DIVERT

Electronics accepted in the OES Program

All-in-one computers
Answering machines
Audio cassette players/recorders
Camera dock printers
Cameras (Digital and non-digital)
CD players/recorders
