APPENDIX 1

1.0 Drawing Requirements

This section of the guide sets out the detail which should appear on each drawing submitted in support of an application for site plan approval. Please use the "check boxes" when preparing drawings to ensure that the Township's drawing requirements are fulfilled. Please not that this is a standard list which covers drawings prepared in conjunction with most forms of development. Additional detail may be required for certain projects. The Township reserves the right to request additional drawing detail where it is deemed necessary. All drawings submitted for site plan approval must be folded to a size not larger than 9"x12".

1.1 Information – Common to All Drawings

The information listed below **should appear on all drawings** except the Survey Plan, Floor Plan and Elevations. (Please refer to the specific sub-headings for lists of data to appear on these drawings).

- Border, legend containing pertinent project information, the firm(s) responsible for preparation of the drawing, date, scale, job reference number, and a revision block;
- b) Key plan, north arrow, and bar scale;
- Concession and lot number, registered plan number, block and lot reference and/or municipal address wherever applicable;
- d) Property lines including bearings and distances of the subject property;
- e) Dimensional reference to the nearest intersection of public roads;
- f) Existing and/or proposed street widening and 0.3 metre reserves;
- g) Easements or rights-of-way on or adjacent to the site;
- h) Abutting road right-of-way width and centre lines including any adjacent municipal installations including, but not limited to, traffic islands, utility poles, fire hydrants, catch basins, manholes, sidewalks, transformers, signs, etc.;
- i) Proposed name(s) of private road(s);

j)	Existing and proposed driveways and existing accesses and driveways of adjacent properties including those on properties on the opposite side of the road to that of the subject site;	
k)	Existing watercourses, swale, culvert, retaining wall, embankment, catch basin, and other manmade or natural features on or adjacent to the site;	
I)	Location and size of existing trees and shrubs;	
m)	Existing contours or spot elevations extending a minimum of five (5) metres beyond the property boundary;	
n)	Buildings or structures on adjacent lots and mutual features such as parking areas, etc. within five (5) metres of the subject property boundary;	
o)	Location of existing and proposed buildings and accessory facilities, vehicular and pedestrian entrances, projections, canopies, ground signs, etc.;	ū
p)	Layout of parking spaces, aisles, and driveways;	
q)	Layout of pedestrian accesses, sidewalks, courts, and entrances;	
r)	Location and form of garbage disposal facilities;	
s)	Normal water level and established floodplain boundary of any adjacent rivers or watercourses;	
t)	Adjacent property owned or controlled by the applicant;	
u)	Proposed phasing of the development;	
v)	Stamps, signature, and date by a member-ingood-standing of the OAA, OALA, APEO, OLS, etc., as may be required.	
Su	rvey Plan	
a)	a current property survey or registered plan, certified and dated by an Ontario Land Surveyor, must accompany the submission for Site Plan Approval.	Q

3.2

3.3	Site	e Plan			n)	Location of main and secondary entrances, emergency exits, overhead doors, etc.;	
	a)	Dimensions and height of all existing and proposed buildings, structures, and accessory facilities;			o)	Location of 1.2 metre (4 feet) wide easements to ensure that the owners of interior units of any block of townhomes have a right of access across	
	b)	Dimension of front, side, and rear yards and the distance between each building on the site and between building on the site and between buildings on the site abutting property lines	ū	3.4	Lar	abutting units' yards for maintenance access to their units. ndscape Plan	
	c)	measured perpendicular from the property line to the nearest point on the buildings; Layout of parking and loading spaces, aisles, driveways, curbs, ramps, and lay-bys, etc.			a)	Existing trees, accurately located in plan and clearly specified as to its type, caliper, and condition. Existing trees to be removed must be indicated with a broken line;	
		showing dimensions, curve radii and proposed materials, parking for the handicapped, vehicular circulation routes (show whether one or two way), and fire routes;			b)	Proposed planting plan, using a key system to indicate the full botanical name, common name, quantity, caliper, height, spread, condition, and special remarks;	
	d)	Development Data legend showing gross site area, net site area (gross area minus road			c)	Edges of mass planting beds;	
		widening), gross building floor area, building coverage as a percentage of gross site area, landscaped area in square metres, and as a percentage of gross site area, parking spaces required and provided, density and breakdown or different land uses including unit sizes, maximum			d)	Location and dimensions of natural and man- made features such as berms, catch basins, swales, ponds, ditches, and storm water retention areas;	
	e)	building height, etc.; Label general areas proposed to be landscaped			e)	Location, dimensions, and proposed surface materials for walkways, courts, entrances, walls, and fences;	
	·	such as location of berms, areas to be planted, sodded or seeded, walkways, etc.;			f)	Location (site lighting plan) of exterior site lighting;	
	f)	Location, height, and type of existing and proposed fences or walls;			g)	Proposed snow storage and garbage storage areas;	
	g)	Location and design of garbage disposal facilities;			h)	Installation details for proposed tree planting, shrub planting, shrub spacing, groundcover, fence,	
	h)	Proposed staging of the development of the property;				wall and screen details, walkways, ramps, pre-cast paving stone installation, and specialty patterns or treatments, etc.	
	i)	Location, height, and direction of exterior lighting;		3.5	Ele	evations	
	j)	Approximate location and height of buildings or structures on adjacent sites;			a)	Border, legend containing pertinent project	
	k)	Location and extent of exterior ground floor privacy areas (i.e. patios, decks, porches, etc.);				information, the firm(s) responsible for the preparation of the plan, date, and scale;	
	I)	Proposed snow storage areas;			b)	Include four main exterior elevations of the building(s) indicating the following:	
	m)	Location, height, and design detail of proposed free standing signs;				i. Design concept of the proposed building(s);	
						ii. Details of public areas and special features;	

		iii.	Entrances, doors, arcades, etc.;		I)	Insulation on all sewers with less than 1.5 metres	
		iv.	Recesses, projections, and special features;			of cover.	-
		٧.	Proposed exterior finishing materials;	3.8	Gra	ding and Drainage Plan	
		vi.	Finished grade, floor, and roof elevations;		a)	Existing and proposed contours or spot elevations throughout the site, along the property line, and on	
		vii.	Proposed signs, lights, equipment, and equipment housing;			abutting properties within 5 metres of the subject property boundary;	_
	,	viii.	Outline elevations of adjacent buildings drawn in correct relationship to the proposal.		b)	Benchmarks;	
3.6	Flo		Plan(s)		c)	Elevations of existing and proposed catch basins, manholes, and culverts on site, within adjacent road allowances and on abutting properties within	
	a)		der, legend containing pertinent project rmation, the firm(s) responsible for the			5 metres of the subject property boundary;	
			paration of the plan, date, and scale;		d)	Proposed method of land drainage and stormwater retention/disposal methods including	_
	b)		ow general layout, proposed uses and ensions of the interior space;			soakways, ponding areas, and intended direction of surface flow. Include details as required;	_
3.7			ervicing Plan		e)	Proposed ponding elevations of both the 5 and 100 year ponding areas;	
	a)	clas	ation, size, length, material, proposed grade, ss of pipe, and invert elevations at all nections of all storm and sanitary sewer pipes;		f)	Location and detail of surface water outlets; [minimum culvert size 0.45 m (18 inches)]	
	b)		ation, size, and grade of private sanitary and m drain connections;		g)	Location and detail of swales (minimum grade 1.5%);	
	c)		ert, finish grade elevation, and numbers for all nholes;		h)	Direction of surface flow (arrows showing the percent of slope);	
	d)		ere utilities cross, show the obvert of the lower e and the invert of the upper pipe;		i)	Proposed material, elevations, and grading of driveways, ramps, walkways, and curbs;	
	e)		equate easements must be given for protection;		j)	Cross-sectional details of curbs and pavement including asphalt, granular, base and sub-grade;	
	f)		nholes, catch basin manholes, and catch ins;		k)	Location and extent of proposed curb and road cuts;	
	g)		ches and swales must show slope of ditch and e slopes;		I)	Construction details of proposed retaining walls or similar features;	
	h)		ation, size, and material of water mains, and fighting siamese connections;		m)	Spot elevations at top and bottom of curbs, breaks in slopes, high points, etc.;	
	i)	Hyd	dro transformer vaults and access routes or ds;		n)	Location and finished elevation of catch basins and manholes;	
	j)		cation, size, and elevation of all existing derground utility lines on or adjacent to the site;		o)	Features (trees, planting beds, berms, hard surface areas, rock outcrops, etc.) that are to be	
	k)	Exi	sting centre line of road and boulevard grades;			preserved and that are proposed;	

	n)	Finished ground elevation (proposed) at the		a)	Location, height, and direction of exterior lighting;	
		building line;		b)	Writing layout from hydro service to all fixtures;	
	q)	Finished first floor elevation of all buildings on site;		c)	Fixture details (i.e. sectional view specifying manufacturer, materials, etc.);	
		Top of foundation and underside of footing elevations;		d)	Illumination pattern and footprint for proposed fixture layout (may be required, check with	
3.9		nposite Utility Plan sidential Development Only)			Department Staff).	
		Correct lotting as shown on the registered plan or property survey;				
		Location of sanitary sewers, storm sewers, and watermains;	Q			
	c)	Show driveways that require clearances from transformers and fire hydrants;				
	d)	Utility service drop locations;				
	e)	Sewer lateral service locations;				
	f)	Streets, dimensioned for both roadway and utilities;				
	g)	Typical utility road cross-section;				
	h)	Streetlighting system (if applicable);				
	i)	Street furniture (i.e. pedestals);				
	j)	Canada Post mail boxes;				
	k)	Closest location which hard and soft landscaping may be placed in relation to street furniture;				
	I)	Utilities sharing the same trench are to be indicated on the drawing as a single line with the appropriate initial to detail which utilities reside in the trench (i.e. H=Hydro).	ū			
3.10		e Lighting Plan (Commercial and ustrial Developments Only)				
	and Dep light way	ite Lighting Plan may be required for commercial industrial developments. The Public Works partment should be contacted regarding special ting design requirements within municipal rights-of-the following information must be shown on the atting Plan.
